Version Release Change Log

Release 2.5.0: 18 July 2023

ADDED	The number of Studies and Datasets on the application homepage are automatically updated.

ADDED	Data depositors and data curators can now work together to jointly edit a submitted dataset, to make necessary modifications before the archival and publishing in the public catalogue. This process is called "Joint Review."

ADDED	Data curators can withdraw a published dataset version from the public catalogue. A withdrawn dataset version can be corrected and republished.

ADDED	Data curators can assign themselves or data curator colleagues to review and publish Studies.

CHANGED	Data depositors can replace or delete uploaded files while keeping the metadata describing the file.
