

Version Release Change Log

Release 2.1.0: 20 May 2022

ADDED

Option to pre-reserve a DOI for the dataset.

ADDED

A time limited URL (1 year) can be generated for providing restricted access on unpublished datasets (to send to reviewers, ethical committees, etc).

ADDED

Automatic email notifications are generated for data depositors (when a dataset is archived and published), data requestors (access to datasets approved; dataset updates) and for data curators.

ADDED

A dataset under embargo appears in the public catalogue, with the "Download" option appearing once the embargo date has passed.

CHANGED

Contracts and license selection is incorporated in the Dataset block. "Special Permission" and "Access" only appear if the Closed Contract option is selected.

CHANGED

Linguistics metadata and controlled vocabularies were refined.

SECURITY

Security updates were implemented.

BUG FIX

Only the current version of a dataset can be downloaded; a previous version can't be downloaded.
